"Its been almost **ten years** since our family has been associated with Mrs Taruna and Ms. Pratibha who have always extended their wholehearted

cooperation in planning and executing our

holidays. Our notice to them for planning and executing our trips would mostly be last minute and yet they would happily oblige and cater to all our needs during the stay. We have risen to such a

level of comfort and trust being associated with them, that now our travel diaries are incomplete

without their personal touch and kind gesture. Would like to take this opportunity to thank them

for making our holidays so special and truly memorable in every way possible. Looking

forward to many years of happy vacationing"
